

## Until we Meet Again

Cleo Lane

**Soprano**, (Alto and Tenor sing Oo through the first verse)

How long will it be til I really see your face again?  
How long will it be til I hold you?  
You are just down the road but you seem so far away, a mile can feel like a million

*Bridge*

(And I) Miss the sound of your laughing, miss the colour of your song.  
(And I) Miss the sound (of you) stamping on the ground, miss the way we get along.

*Chorus*

Until we meet each other again, until I take you by the hand  
until we sing our sweetest harmony, I'll hold you safe within my heart.

*Verse*

You have been with me on this extraordinary journey  
and I love ev'ry beat of your heart  
and when all of this is done, and we're standing in our room again,  
It'l be like we never were apart

Oo meet again, meet and then take my hand. Oo sing our song, harmony in my heart.
